

YORKEYS PRIMARY
CARE CENTRE

ABOUT YPCC REMOTE HEALTH

After working and experiencing the transient nature of Cairns and the effects of a thriving tourism industry Dr Brian Baker realised the need to provide a quality, easily accessible, dependable health care service to people travelling around Australia or living in regional and remote areas.

Yorkeys Primary Care Centre (YPCC) provides a quality health care service remotely, to Grey Nomads, travellers and people living remotely. This will enable you to have continuity of care while you are away. Whether you are travelling by car, boat or plane.

By accessing YPCC and choosing us as your primary health care provider, whilst travelling around Australia, you will be assured of who you are receiving your treatment from. Dr Brian Baker will be your remote health practitioner and will oversee all treatment. We believe in engaging effectively with our consumers and building strong rapport and trust with you as a person. Providing holistic, compassionate and continued care is what our service will provide.
